Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2013 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34; Interim Financial Reporting. These condensed consolidated interim financial statements do not include all the information required for full annual audited financial statements and should be read in conjunction with the audited financial statements of the Bank as at and for the year ended 31 December 2012, which have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by International Accounting Standards Board ("IASB") and applicable requirements of the federal laws relating to Islamic banking.

Notes to the condensed consolidated interim financial statements - Reviewed (Continued)

3. Significant accounting policies (continued)

IFRS 10 Consolidated Financial Statements and IAS 27 Separate Financial Statements

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaces the parts of previously existing IAS 27 Consolidated and Separate Financial Statements that dealt with consolidated financial statements and SIC-12 Consolidation — Special Purpose Entities. IFRS 10 changes the definition of control such that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all three criteria must be met, including:

- (a) an investor has power over an investee;
- (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and
- (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns.

3.2 Financial risk management

The Bank's financial risk management objectives, policies and procedures are consistent with those disclosed in the audited financial statements as at and for the year ended 31 December 2012.

4.

3.3 Financial assets and liabilities

The accounting policies, classifications and measurement principles for financial assets and liabilities applied by the Bank in these condensed consolidated interim financial statements are the same as those applied by the Bank in its audited financial statements as at and for the year ended 31 December 2012.

4. Key accounting estimates and judgments

The preparation of these condensed consolidated interim financial statements requires management to make estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty, and actual results may therefore differ as a result of future changes in these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Bank's accounting policies and the key sources of estimation and uncertainty were the same as those applied to the audited financial statements as at and for the year ended 31 December 2012.
